EDMONTON, ALBERTA—TUESDAY, NOV. 8, 1932

FIVE CENTS

POLITICAL POT BOILS OVER MONDAY

Bloodshed at Saskatoon as Jobless Battle Police

D. Knott Points To Utilities

Says City Will Benefit by
More Than \$500,000—
Defends Power Pact

Edmonton has seen a lot better off than other cities during the depression, pointed out Mayor David Knott, Labour in the city added, was deteriorated at the Memorial hall, Garrison school and the Rose Theatre Monday night as the campaign warmed up to a hot finish.

What he had in mind was the fact that Edmonton's tributary areas had been blighted with fire, credit that there had been a fair volume of business and that also he had the time shown to him by the public utilities, Mayor Knott said.

The public utilities were pouring a golden surplus of more than half a million dollars into the city, he said, and the power plant had been greatly improved as a result of the agreement with the Calgary Power company.

LOW PRICES TO BLAME. Edmonton's troubles had been due in part to the fact which primary producers had been paid for their products, with the resulting slackening in business and the

As Fire Raged At St. Vincent de Paul

Here are first photographs showing views of St. Vincent de Paul Penitentiary during the outbreak of fire on Friday, November 8. Photographers were prevented by prison authorities from approaching close to the institution.

PRISON MUTINY FLARES AGAIN IN ST. VINCENT

Rebellion Breaks Second
Time in Four Days—
—Quelled

ST. VINCENT DE PAUL, Que., Nov. 8.—Anxious eyes were cast today at St. Vincent de Paul Penitentiary where yesterday a mutiny flared briefly for the second time in four days. The rebels, who had broken his left arm broken at the wrist and his scalp ripped when attacked by police, were again quelled by a sledge hammer.

The disturbance lasted only 15 minutes and, as of that time, the convicts were securely locked in their cells. Two shots were fired in the course of the struggle, but quelled the trouble which broke out in the stone cutting plant at the quarry outside the prison walls.

TURN GUARDS. A group of about a dozen prisoners, a group of whom jumped into a long line and leveled their rifles at the mode of discipline, their commanding officer at the institution to stop before they were shot down. The mutiny was given in complete discipline was in force.

At the time of the disturbance, P. A. Plante, warden of the penitentiary, was away on vacation, so that the penitentiary was over-crowded.

"It was built for 600 inmates," he said.

SYMPATHY FOR KINGSTON. "We have 1,100 here now. This trouble is sympathetic now," said Col. Plante.

Col. Plante looked haggard and worn by the ordeal, but he said he had no time to go into last Friday's outbreak at the penitentiary when 20 convicts headed by a half-crazed Negro named Grouard staged an insurrection with the prospect of effecting a wholesale jail break.

They sent two guards to the hospital infirmary to return six of our number, including Crozier, injured. The Negro was captured and destroyed by fire, its valuable equipment and tools being ruined.

HOUSTON, TEX. Nov. 8.—Returns from 105 of the 140 precincts in the state of Texas have been turned in, the Houston Chronicle at 1:45 p.m. gave Roosevelt 3,520, Hoover 3,290, and George M. Norris (D.) 7,780. Burlington (R.) 4,526.

BOSTON, MASS. Nov. 8.—With 27 out of the 140 precincts in Massachusetts' 1,707 precincts reported, the city of New Bedford, D. Roosevelt, Democratic presidential candidate, had 3,844 today. The total were: Hoover 3,935; Roosevelt, 13,446.

Montreal, Quebec. Pool delegates are now being held for the proposal of a national wheat board. At Monday's session of their eighth annual meeting they unanimously endorsed the plan, and voted to send a delegation to Ottawa to secure the necessary legislation at the forthcoming sessions of the Senate and the House of Commons.

Since joint federal and provincial legislation is required, it will be necessary to establish the establishment of a wheat board.

Parliament Passes Excise Tax Bill

CHEAPER FAGS IN SIGHT FOR CANADIAN USE

Impost Reduced From \$16 to \$14 Per Thousand

Ottawa, Nov. 8.—Cheaper cigarettes and liquors will result from a bill passed by the House of Commons yesterday. It reduces excise taxes on Canadian cigarettes from \$6 to \$4 a thousand and on beer from \$10 to \$7 on cases of liquor from \$8 to \$7 a proof gallon.

The new treasury will lose between \$1,000,000 and \$2,000,000 a year if consumption remains stationary, but it was estimated by H. M. Mackay, minister of national revenue, who drafted the bill.

For the first time, Canada has considered the bill, Col. S. C. Robinson, Const. Excheq., went, rendering his opinion that it was in the order against exportation of liquor to countries.

LOSS TO CANADA

Canada lost \$10,000,000 a year through prohibiting liquor shipments to United States, he said.

Dr. Lowe said: "The appeal fell on deaf ears."

In ponderous style, the house considered thousands of men who, hit by the depression, turned to rolling their own smoke.

Mr. Lowe believed the cut in the excise tax and corresponding drop in price was unnecessary for smokers to roll their own. Likewise, he believed that in the future, smoking would be another blow to bootleggers.

It was felt that a discussion of the two agents of Bascom's should prompt references to him and to Mr. J. E. Brown, Liberal Leader, said he was sorry to see liquor made more available through the bill.

Col. H. A. Mullins, Conservative, Marquette, asked: "What is health? What is the people?" he opposed making cigarettes cheaper and more available.

SMUGGLED CIGARETTES

Smuggled cigarettes are smuggled into Canada each year from United States, said Eddie Keel, Conservative Member.

He proposed an amendment which would limit the reduction in excise tax on cigarette to 25 per cent Canadian tobacco. He was the only voice raised in support.

Miss D. Euler, former minister of national revenue, doubted whether the reduction would be good thing.

Miss Euler, former minister of national revenue, doubted whether the reduction would be good thing.

"I don't think it is a good thing for the men and boys of Canada to smoke," she said.

If you give me one you will want to give me another," Eccles J. Gott (Const. South Essex).

DEAUX COMPARISON

He only wished the government had listened to the many manufacturers of Great Britain as it appeared to have listened to the whole of the British Empire.

Mr. Lowe regretted the government had seen fit to reduce the tax.

"I don't think it is a good thing for the men and boys of Canada to smoke," she said.

If you give me one you will want to give me another," Eccles J. Gott (Const. South Essex).

STORMY MEET WILD SCENE OF DISORDER

Continued from Page One

the disorder reached its peak when Ald. W. G. L. Glavin, M.L.A., stepped on the platform the place turned into a madhouse, then with Ald. Gibbs telling the organized inter-ruption just what he thought of their resolution, and Ald. Glavin was the first of the speakers that caused the greatest disturbance.

Hundreds of citizens were unable to get a seat, and after some of the speakers had left the hall without trying to get on to the platform, old-timey agitation took place, and there was a definite demonstration.

There were tumultuous scenes also at the meeting, where the second of the three Monday night meetings were held.

PERSONAL ATTACK

One speaker made a personal attack on K. J. Bitchford, independent candidate for alderman, terminating in Mr. Bitchford calling the heckler a liar and challenging him to a duel.

At Garrison school, when the third meeting was held, proceedings were suspended.

Major Knott was the first speaker at the meeting, and he was the signal for a狂暴的 outburst of cheers and yells. In view of the fact that a good deal of the disorder was "organized,"

the outburst received itself into one against the chairman, who was charged with having organized and so mainly sustained him.

Mr. Glavin, Labor candidate for alderman, was the next speaker, and even her sex did not sit well with him, as he was heard shouting when first attempted to speak.

There were hearty cries of "Black & Blues" and "Send him to Siberia!"

In a momentary lull, Mrs. Ringwood cried: "With that I was a man again." She was followed with some of you as you deserve!"

STORM OF CHEERS

This was the admiration of the audience and there was a unanimous storm of cheers following

"Famous Last Words"

Hoover Pleads People Not to Be Led Away by False Gods

ON BOARD PRESIDENTIAL SPECIAL, en route to San Fran., Calif., Nov. 8.—President Hoover neared his home today for the first time since his arrival ready to cast his ballot and await the decision of United States voters.

The chief executive brought his family and his campaign staff on board the train to climax last night with a press conference in New York city to receive returns. Summing up his campaign in tones vibrant with emotion, he said:

"To be the means through which the ideals and hopes of the American people may live on, to serve the best needs for the best in any man, I am the most humble emblem of this realization."

which she was able to speak without difficulty.

"There is a lot of worry about a balanced budget. I am concerned about the welfare of the starving people," commented Mrs. Ringwood, and added, "I hope the system can give us, then let those to whom they have given add to it if they have had a good year added, explaining that the care of the starving was the most important problem.

J. Gordon Savage, Citizen's League spokesman, told the next speaker, but he might as well not have appeared. And the storm of cheering continued.

Mr. Glavin, former Citizen's League spokesman for the School Board, did not take all of the cheering, however, and he said simply that he would do his best to serve the interests of all if he could.

Dan Fawcett, Labor nominee for the School Board, did not appear on the little table and apparently did not have time to try to give a square deal to all.

Mr. Ogilvie, Labor nominee for the School Board, did not appear on the little table and apparently did not have time to try to give a square deal to all.

ROSS McDARDIM

His projected world tour halted by his parents' return to Canada. Ross, McDardim, 14-year-old son of the minister of mines and natural resources, was last seen in New York, where he was shown telephoning to his father, John G. McDardim, 52, at his home in New York City, where he went away from home Oct. 23 because of a desire to see the world.

TEED UP PARLIAMENT

Mr. King claimed that he had the hands of future parliaments in such a position that he would be entering into trade agreements with foreign countries.

The former five-year term was essential, he said, to give the government time to deliberate choice to make trade arrangements with the Empire rather than with foreign.

The former Liberal government had been unable to settle with West Indies for 12 years which was still binding on Canada.

Mr. King said only a few minutes ago to approve the agreements with Ireland and Canada.

He said that the main stumbling block developed in the South African treaty negotiations.

He said that he had asked the question of the fixer term.

This pact is still in the committee stage, but Mr. King said that the house will turn to the United Kingdom treaty.

GANGLAND SEALS
WITNESS' LIPS

NEWARK, N.J., Nov. 8.—The lips of a witness in a gangland trial were forever sealed today by a judge and a policeman assigned to guard him at the request of relatives who shot down by three and possibly four men who escaped.

Augustine A. Gagliano, 47, a fireman at the Christian Freeman Corn plant and Patriotism Aadolpho Gagliano, 42, a carpenter, both of a family in a hotel room, Gagliano, who had been nervous all night, was shot down by a car driven by the police at 12:30 a.m. and died.

It is the third man to be killed in the city since the end of the gangland

era. The first two were shot in adjoining rooms, momentarily out of sight.

"They have got me?" Weigand suddenly heard his yell. Then shots rang out and Gagliano fell, mortally wounded. He lay on the floor, gasping and with revolver drawn and fired at the family's outlined form of a bullet shattered his gun arm.

Gagliano was the most stabilized of the three victims. John G. Finelli in a federal prison sentence on the Rising Sun rioting of Elizabeth, September 19, 1930.

Fire Laddies
Called; Water
Wagon Aflame

SACRAMENTO, Nov. 8.—A. Louis Hartmann was held to bring on "the water wagon" for that was part of his job.

He was pulled, however, under the seat on a street speaking truck.

Finelli, extinguishing the black Hartmann called the fire department.

Three tons is an average load for an adult elephant to carry on its back.

HANNINGTON IS
GIVEN SENTENCE

LONDON, Nov. 8.—W. A. L. Hannington, the Communist agent who was accused of being a spy for the unemployed, was sentenced to stay to three months in prison.

He was released yesterday after he had threatened to load 50 men to the house of commons with a demand for a general strike.

The specific charge was that in a speech at Trafalgar Square he had attempted to incite mutiny among the police.

TRADING WITHOUT MONEY

Even the most primitive barter. The Government of Newfoundland is trying to return to that primitive method of exchange. It will trade pit props for British coal, with which to heat the public buildings.

The world's money is badly out of line with one another. That is one reason why traders among the nations is at the ebb. Human beings' faith in the value of everything but money, they are fast losing faith in all money but their own. Hence exchange is so variable and so wide that even government finds it cheaper to do business without the use of money.

The use of "money question" is to be taken like the tariff question, that world economic conference will not want for subject to debate or opportunity to discuss.

20 CENT WHEAT?" ETC.

The associated boards of trade of the Peace River district have appealed to Premier Bennett for some measure of relief from "Twenty cent wheat, nine cent oats and two cent hogs."

The need of relief cannot be more convincingly shown than never was in Canada when farmers could maintain themselves on such prices. And the tariff policy of Canada today is framed to maintain, and does maintain, the prices of the things the farmer can sell at levels highest therefrom in the new depression.

What is asked is that Peace River be allowed to export its wheat at the same freight rates as are charged on export wheat from Edmonton.

The time has come for the way of subsidies to the railways, but it would be worth the money. It would give a small measure of relief to farmers now facing an impossible position. It would help to re-establish confidence in the farming business in that wonderfully fertile section of the Dominion.

PAYING ON THE DOT

Edmonton is to pay off \$60,000 of civic debt next year. The funds are in hand with which to pay. That is the important fact. The taxpayers have cause to be thanked, as well as proud, that it is a fact.

In good years and in bad, Edmonton has kept steadily to the policy of putting aside from the earnings of the city a sum sufficient to meet the amounts required to pay its debts as these fall due. It is now to reap the benefit of its wisdom. The bonds will be paid and the interest will stop.

Appreciation is due from the taxpayers to Commissioner Mitchell, to Mr. Vorath, to Mr. Mount, and to all those who as executives or members of city councils have in the last twenty troubled years held resounding the principle that the sinking fund must be intact and up to the full measure of their requirements.

How that was done has sometimes been a mystery, but somehow it has been managed in each year to turn over to the sinking fund the amount required to pay its debts as these fall due. It is now to reap the benefit of its wisdom. The bonds will be paid and the interest will stop.

It is no bad advertisement for Edmonton that it is meets these obligations in cash and promptly, at a time when many other cities are in distress, when some of them are bankrupt, and when floating new loans to pay old ones is doubtful possibility.

There has been talk of Edmonton going into receivership. With funds available to meet its debts, that would obviously be a matter of policy, not of necessity. The course would be taken if it were taken, in the supposition that a receiver might make better affairs for the city, but it would be for ourselves. As far as paying our civic debts are concerned we have been acting as our own "receivers" and doing it one hundred per cent successfully.

"GOING AND COMING" WE LOSE

The Government of Canada still resolutely refuses to deflate the dollar.

Partisan under leadership and direction of the Government rejected a motion by Mr. C. G. Cook, of the Liberal party, to take steps to reduce the value of the Canadian dollar to parity with that of the British pound.

Hon. H. S. Stevens, erstwhile advocate of the monetization of silver, adenominational advocate of the dollar, and now a member of the Conservative party, is to be seen in London, England, to see how radical revolution would be withdrawn. It was he who had to vote against the bill.

What is to be done? The government would be exceedingly reluctant to hurt the feelings of U.P.F.A. members who talk low tariff on the hustings but vote for the high tariff Government in parliament at critical times.

The dollar was voted down. But only by a majority of 100 to 71. A year ago not half that many members would have voted for it. That is the significant fact in the vote.

Deflation of the dollar is coming, unless condi-

tions change suddenly for the better, whatever the result. Government may think that it is the policy or impolicy of the Government that is fighting it. Mr. Stevens is apparently the only member of the Government who appreciates that fact.

What this vote means is that Canadians are going to sell their products abroad at a discount and paying their debts abroad at a premium.

Our farmers are to be, as heretofore, "gipped" six or eight cents a bushel when they sell meat in Great Britain. Every other product and manufactured article is to suffer likewise when he sells in a non-gold country or in a country that has reduced the gold content of its coinage. And we are going to pay New York \$1.10 or thereabouts in gold for a bushel of wheat.

The policy of the Government on the money question is that Canadians are to be short-changed "going and coming" in their selling and in their buying. The only thing that has been done is to stand up to say they are against the continuance of that suicidal way of doing business.

Forty Years Ago

From the Files of the Edmonton Bulletin

The several surveys which have been working in the Edmonton district during the past season under direction of J. S. Dennis chief inspector of surveys, have all come in for the season. Employed on re-surveying were 100 men, and on new subdivisions work, 200. M. H. Robertson, A. O. Wheeler, J. D. Fitzpatrick, McLaughlin and G. Gosselin. Further south, in the Red Deer district, Messrs. Michael Deane and P. T. C. Daniels were working on the survey of the new townsite. The greatest assistance to settlement, the settlers have followed on close on the heels of the surveyors that at the close of the season the surveys are little if any farther ahead than they were last spring. At the same time the prospects for subdivision are fair, and the surveys are far enough advanced to allow of sufficient care to ensure that all the people who may choose to come for a few years, at least, can be accommodated and suited, if it is possible to suit them.

A small amount of platinum has been mined on the Saskatchewan River near the mouth of the concretely increasing value of this metal. It is strange that miners do not pay more attention to it.

THIRTY YEARS AGO

W. N. Whillans will open a store at Beaver Lake. Debenture No. 1 of the town of Edmonton for \$17,700 was issued and paid off yesterday. This is the first time that the town has turned to that primitive method of exchange. It will trade pit props for British coal, with which to heat the public buildings.

The world's money is badly out of line with one another. That is one reason why traders among the nations is at the ebb. Human beings' faith in the value of everything but money, they are fast losing faith in all money but their own. Hence exchange is so variable and so wide that even government finds it cheaper to do business without the use of money.

The use of "money question" is to be taken like the tariff question, that world economic conference will not want for subject to debate or opportunity to discuss.

GIVE HER TIME SHE'LL BE GOOD

DEAR MISS DIX.—I have been keeping company with a wonderful girl for the last six months. She is beautiful, does not eat or smoke, and is a wonderful little cook. But here is the hitch. She will not let me go to her house. She says she has a date with another man. If we go in for even an ice cream or a soda she insists on paying her own check. The other day we got on a street car together and one paid the fare. She said, "I can't let you do that." I told her I was not asking her about being a cheap skank and asked me if I needed a nickel. She made me mad and I asked her to get off the car. She got off and I sat in the middle aisle in a humiliating position. She considered that rude and since then has had nothing to do with me and I am heartbroken. What can I do? BILL.

Answer:

Give her a little time and she will find out that every other decent-looking young chap takes the same attitude toward her. She is the kind of girl every man who is in love with a woman wants to do things for her. He wants to give her things, to take care of her, to be considerate of her, making life a little easier and pleasanter for her.

DOROTHY DIX.

What is that? What is men work for? That is what good times and pretty clothes and nice things men tell. There is precious little that their money buys for themselves.

And a girl knows little of masculine psychology who doesn't let a man spend something on her, for the more a man does for a woman the more he loves her.

No girl could do anything that would be more calculated to draw a man away from her and cool him off than for her to tell him her own way when she went with him. It is a great turn-off for a man to feel that his girl is so forward that they were going on a Dutch-treat plan.

Also, men are far more conventional than women. It is expected that a man will pay for a girl when he takes a girl out and when he doesn't do that it puts him in the position of being a cheap skank, a digger or else a cheap skank and both positions are humiliating and make a man ridiculous in the eyes of other men.

It is fine for a girl to be independent and not to be a digger-digger, but she has to have enough discernment to know when her pocketbook and when to keep it shut.

DEAR MISS DIX.—My husband has been a respectable businessman and has always been a good man until now when at the age of 50 he has completely changed. He now goes around with the girls built up. He is taking all kinds of music lessons and is the laughing stock of the town because he is at the top of his voice. He has a regular beauty parlor of his own and spends a lot of time on himself and grows hair on his bald head and takes all kinds of ridiculous cosmetics to make himself look like a figure. He tries to charm with boys and girls of 16 and brings that he is in love with them. He is about 20 or 30. He is always quarreling with his own children and making passes at them. His wife and children are shattered and I am ashamed to meet my friends. Is there any cure? MRS. C.

Answer:

Oh yes, a certain cure. Time. He is just going through the age of 50. He is probably trying to impress other men at this time of life and if you will just be natural he will soon come over to you and talk to your doctor about it and he will explain it all to you.

It is just the last stage of life, a last call to the danceteria, but there are many things to do tragic things such as imagining they are too young for their wives and husbands. They are in love with flappers and while they are under that delusion they often break up. They are too young for their wives and marry girls young enough to be their grandmothers and repeat it over and over again.

Sammen what some of humor can be to understand the situation and be thankful that it is no worse.

DOROTHY DIX.

Minute Make-Ups
By V. V.

A tailored straightline dress in a wool and silk novelty crepe in wine-red tones, uses plain white piping. It's decidedly slenderizing with its cross bodice closure and wrapped effect. It's a model too, that makes up marvelously in the two surfaces of crepe and silk.

Style No. 385 is designed for ladies of 36, 38, 40, 42, 44, 46 and 48 inches.

Size 36 requires 3½ yards of 39-inch material with ½ yard of 39-inch material.

Pattern will be delivered upon receipt of TWENTY SEVEN cents, plus postage, carefully wrapped or stamped with your name, address, style number and size.

OUR LATEST FASHION BOOK costs only FIFTEEN cents in addition to the cost of pattern. Send to Department, Edmonton Bulletin Co., 1025 102nd Street, Edmonton, Alberta, Canada. Please enclose 14 cents for delivery.

Milady Beautiful

By LOIS LEEDS

READERS' BEAUTY QUESTIONS ANSWERED

Bleach for Neck and Hands

DEAR Miss Lee: Will you please tell me how to bleach my neck, as it is very much darker than my complexion and also covers my neck and breast which is quite noticeable, even during the summer months.

I use a good home remedy that will soften and whiten the skin.

Answer—You may use the following home treatment regularly. At bed-time wash the neck with soap and warm water, rinse in cold water. Dry well. Pat on the skin with a clean cloth.

One ounce peroxide of hydrogen; 1 ounce glycerin; 1 ounce of rosewater. This is a good bleach for freckles. Once a week you may use this. You may add a small amount of baking soda to the cream.

DEAR Miss Lee: I have very dry skin, brittle hair, and I shave daily. I am afraid to use a hair dryer to dry my sister's hair, as it is very short.

Answer—A hair dryer is a good way to dry the hair. Use a soft cloth to wrap around the hair.

DEAR Miss Lee: I have a very dry skin, brittle hair, and I shave daily. I am afraid to use a hair dryer to dry my sister's hair, as it is very short.

Answer—A hair dryer is a good way to dry the hair. Use a soft cloth to wrap around the hair.

OUR BOARDING HOUSE - by Ahern

FUNNY HOW TH' IDEA OF ICE CUBES WITH GINGER ALE FLAVOR CAME TO ME — LIKE A FLASH, IT DID — I WAS LAYIN' IN BED ONE NIGHT, THINKIN' HOW IT WOULD BE IF I WAS BACK IN TH' OLD DAYS OF TH' EGYPTIANS, JUST WHEN THEY STARTED TO BUILD TH' PYRAMIDS, AN' ALONG I COMES WITH A CONCRETE MIXER — THEN, POP! JUST LIKE THAT! TH' INSPIRATION HITS ME TO MAKE GINGER ALE ICE CUBES!

A GREAT IDEA, MR. NEEDLES, AND I LIKE IT. SO NOW THEN, LET'S DISCUSS THE PROPOSITION, IF I AM TO INVEST MY \$600 IN IT — BY THE WAY — THE NAME OF HOOPLE WILL BE A VALUABLE ASSET AS A TRADE NAME WITH THE — I MEAN, OUR PRODUCT.

THE GENIUS IN PERSON

Salesman Sam - by Small

HEY GUARD, WHERE'S HE'S IN SOLITARY FOR DISHONORABLE SELL TODAY? OBEYIN' RULES AND REGULATIONS!

I'M GOIN' SNEAK IN RUEFUL CUT WHAT TH' RECK HOME DID!
HEY, HOWIE, WHAT THEY GOT YA LOCKED UP FOR?

JES' BECAUSE I PUT MY PRISON SUIT ON WRONG!

O, of "Pop" Warner's formations is the double wingback formation. This formation is one of the most popular formations used in football. It is a variation of the single wingback formation, which was popularized by Warner. In the first diagram at left is Warner's formation. "A" is the fullback and "B" is the wingback. "C" is the left end and "D" is the right end. The ball is always in the hands of the fullback, and he follows in position to receive the ball.

In the second diagram, showing Warner's formation "B," after the quarter or fullback may take the ball and work deception plays.

WINNIPEG, Nov. 8.—Shorts' Reduc-

tion caused by unusually high de-

liveries at country elevators yester-

day, when prices down on the

grain market, were followed by a

close to 11 per cent. for the day.

Now, however, the 47¢, down

December, is the same as it was at

May, even cent lower at \$1 and

2¢ higher.

A little export was worked out of

Vancouver but no estimate was avai-

lable. The grain market in New

York houses was evident during

the morning, but the pressure from

farmers was so great that they

have been hauling to carry points

for the past ten days, too much

for the railroads to handle.

Volume of trade was quite substan-

tial in view of the fact that the

States was closed for the first half

and was particularly active Liverpool

and London, while

Bromley reported a little bullish

sentiment in the opening stages of the

market, but the general picture of

advance here yesterday on reports of

fire in Argentina, but the failure of

miners to make any progress in their

cause recast near the close.

Call interest in wheat and coarse

grains has been confined to the

various grades of oats for both export

and domestic use. Offerings were light

and erratic.

WINNING CASH CLOSE.
